Dr. Nader will speak on his scientific discovery:
**“Veda and Ramayana as the Programming Code
of Human Physiology and the Universe”**

We are thrilled to welcome back Dr. Tony Nader, MD, PhD (MIT, Harvard), neuroscientist and renowned successor to Maharishi Mahesh Yogi, whose remarkable presentation at ICC in 2012 awakened us to a new and revolutionary understanding of Veda as “pure science”: the Vedic sounds are seen to be the fundamental vibrations of Natural Law – the programming codes of Nature which create the human physiology and the entire universe.
